Summary

I'm a Computer Science undergraduate at VIT Bhopal with a focus on software development and machine learning. I actively participate in hackathons and contribute to open-source projects to expand my skills. With strong problem-solving, communication, and adaptability, I'm eager to take on diverse projects and new challenges.

Education

Vellore Institute of Technology, Bhopal

B.Tech Computer Science Engineering (Core) *(2023 – 2027)*

Active contributor to technical clubs and open-source initiatives.
Tech Lead of Notion Community, VIT Bhopal

Technical Skills

- Programming: Java, C++, Python, JavaScript
- Web Development: HTML, CSS, JavaScript, UI/UX Design
- Databases: MySQL
- Tools & Platforms: Git & GitHub, Docker, Figma, Canva, Framer, Anaconda
- Other Skills: Data Structures & Algorithms (DSA), Machine Learning Basics

Projects

Eczema Skin Disease Detection (Machine Learning)
Built an ML model using Random Forest and KNN to detect eczema with high accuracy. Focused on data preprocessing, model tuning, and pipeline scalability for healthcare applications.

Deepfake Detection Chrome Extension
Developed a Chrome extension to identify AI-generated deepfake images in real-time using integrated deep learning APIs. Designed a lightweight and user-friendly interface.

Quick QR Code Generator (Full Stack Web App)
Created a web app with Firebase and Google Authentication to generate QR codes, including custom logos. Enabled secure login and real-time storage of QR history.

Certifications

- Postman API Student Expert
- Under 5,000 rank in TCS CodeVITA'12
- GirlScript Summer of Code (GSSoC) Contributor (Top 1,000 globally)
- Hacktoberfest Contributor
- Project Admin- ACWOC , conducted by Andriod Club of VIT Bhopal

Additional Information

Availability: Full-time | May 2025 – August 2025
Interests: Cloud Computing, AI/ML Applications, Software Development, Open-Source Contribution

Non-Technical Skills: Event Management, Leadership, Collaboration, Communication, Public Speaking, Social Media Marketing.
